Marine Torch 'Sea Power'

Marine torches 'Sea Power' are ideal for use on boat, car, home etc. They feature heavy-duty construction from durable PVC rubber material for better grip even with wet hands and resistance to impacts. They are water resistant and suitable for marine environments, however, it is suggested that underwater use is avoided. Equipped with extra bright Krypton bulb, the marine torches 'Sea Power' also feature carrying strap and On-Off push button. They are available in black colour and in three types, depending on the batteries they are powered by.

SPEAKERS

Two-way Speakers Set "Sea Sound" A*

With the Lalizas Sea Sound Speakers installed in your boat, you can relax or party with your friends and loved ones listening to your favourite music. Ideal for use in saltwater environments, they can be mounted both indoors and outdoors. For extra resistance against sun, salt, and water, the cover is made from strong UV-stabilised ABS plastic materials, while the internal components are water and corrosion proof. You can choose between two models, depending on the power you prefer, 80W and 100W, at the convenient sizes of 5 1/4" and 6 1/2" respectively. Available in white colour the Sea Sound speakers will give you the acoustic experience you expect from a high quality 2-Way pair of speakers.
